**INTERVIEW SUMMARY**

Mail Stop: Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

The undersigned attorney of record met August 19, 2009 with Examiner Javanmard and Supervisory Patent Examiner Padmanabhan; the courtesy extended by the Examiners is appreciated. The following topics were discussed:

(i) the claims now pending, as added by amendment dated June 24, 2009, including concordance of the new claims with prior species elections; the effect of the open claim transition; and claim elements that defeat anticipation by the Fredriksson reference<sup>1</sup>;

(ii) the disclosure of Fredriksson, with particular discussion of the administration in both “acute” and “chronic” experiments of dosages of L-Dopa that are alone ineffective to reverse MPTP-caused motor deficits; and

(iii) the Declaration of C. Warren Olanow, filed June 24, 2009 under 37 C.F.R. § 1.132.

---

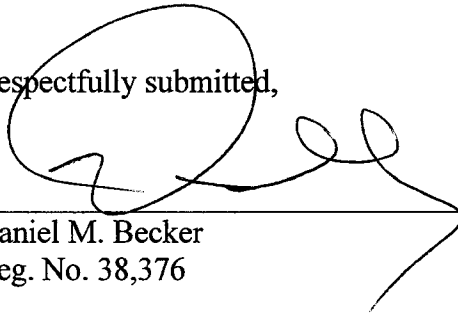

<sup>1</sup> Fredriksson *et al.*, “Effects of co-administration of anticonvulsant and putative anticonvulsive agents and sub-/suprathreshold doses of L-Dopa upon motor behaviour of MPTP-treated mice,” *J. Neural. Transm.* 106:889-909 (1999) (“Fredriksson”) (of record).

The Examiners agreed to take the discussion under consideration in preparing a further office action responsive to applicants' June 24, 2009 amendments. No agreement was reached regarding allowable subject matter.

Respectfully submitted,

Date: SEP 8, 2009
